

PART I - INTRODUCTION

Captain Sim is not affiliated with any entity mentioned or pictured in this document. All trademarks are the property of their respective owners.

Thank you for purchasing one of the most advanced simulations of the Boeing 737 Original series currently available for the Microsoft Flight Simulator X and Lockheed Martin's Prepar3D.

ABOUT THIS MANUAL

VERSION: 21 JULY, 2017

WARNING:
THIS MANUAL IS FOR THE 737 CAPTAIN EXPANSION FOR MS FSX
AND LM PREPAR3D ONLY. DO NOT USE FOR FLIGHT.
DO NOT USE FOR TRAINING, COMMERCIAL OR INSTITUTIONAL
PURPOSES.

The '737 Captain' Manual is organized into four parts.
Each part is provided as a separate Acrobat® PDF document:

- **Part I – Introduction - this document.**
- Part II – Aircraft Systems
- Part III – Normal Procedures
- Part IV – Training Manual

All parts of the Manual are available free of charge via Sim.Ops.

46 SPECIAL THANKS TO

737 CAPTAIN FAMILY OF PRODUCTS

Pro Line Product
NOSTALGY Series

To continue popular series of *Pro Line* products Captain Sim is happy to introduce the **737 Captain** family of expansions for FSX and Prepar3D. The family delivers a complete line of the Boeing 737 Original variations:

Base Pack

Expansion

Expansion

Expansion

Pro Line Product
NOSTALGY Series

737-200 BASE PACK

Highly detailed and accurate digital replica of Boeing 737-200 (Original) aircraft.

This product is the Base Pack for the 737 Captain expansion models (-100, -200C/F, ADV).

SPECIFICATION

The **737-200 Base Pack** is available as 'one-click' installer file for each particular flight simulator:

For FSX: csp732_XX00.exe
For P3D2/3: csz732_XX00.exe
For P3D4: csy732_XX00.exe

Size: ~200 MB

INSTALLATION

Note:

- Internet connection is required for installation.
- Order Number is required for installation.

By now you should receive an email message from Captain Sim Sales with your Order Number and the download links. If not, please read [this](#).

1. Make sure the flight simulator is not running.

2. Download the product

(csp732_XX00.exe/csz732_XX00.exe/csy732_XX00.exe) to any folder on your computer.

3. Run the installer (right click on the .exe file, select 'Run as Administrator') and follow the prompts. The installer will add the product to your flight simulator.

Note:

Our products contain custom anti-piracy code that might be falsely alerted by some antivirus software as malicious. Just ignore the "warnings" because our products DO NOT contain any malicious components.

Upon installing the models will appear under 'Captain Sim' publisher as:

- 'Boeing 737-200 in FSX
- 'CS 737-200 [airline]' in P3D.

The installer will add the following shortcuts:

Shortcut	Location *	Title	Purpose
	Start > Programs > Captain Sim > 737 Captain	ACE	Run Aircraft Configuration Editor
	Start > Programs > Captain Sim > 737 Captain	Sim Ops	Sim Ops URL. The one-stop resource for the 737 Captain flightsim operations.
	Start > Programs > Captain Sim > 737 Captain	Uninstall	Uninstall the product

* location may vary depending on your Windows version and settings.

UNINSTALLATION

Navigate Start > Programs > Captain Sim > 737 Captain > 737-200 Base Pack> Uninstall

EXTERIOR MODEL

Accurate digital replica of the Boeing 737-200 (Original) aircraft.

ANIMATIONS

The model features hundreds of realistic animations:

CUSTOM FLIGHTS

Two flights are included into the '737-200 Base Pack':

- 737-200 Captain Cold-n-Dark (KSEA)
- 737-200 Captain Cleared for takeoff (KSEA)

To load a flight:

1. Start your flight simulator
2. Click 'Load'
3. Select any of two flights.
4. Click 'Fly Now' (FSX)/OK (P3D)

OR if your flight simulator is already running:

1. Go to Main FSX Menu – Flights or in P3D Main Menu – Scenario
2. Click 'Load'
3. Select the flight.
4. Click 'Fly Now' (FSX)/OK (P3D)

INTERIOR (VIRTUAL COCKPIT)

FLIGHT DECK

Highly detailed and functional flight deck.

ANIMATIONS

Hundreds of custom animations:

Seat arm rests (4)

Pilot's seats (2) (up-down, fwd-bwd)

Sun shields (4)

Charts (2)

Pedals position adjustment handles (4+2)

Pilots' windows (2)

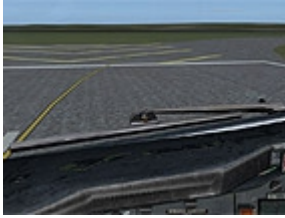

Oxygen mask

Nose steering wheel

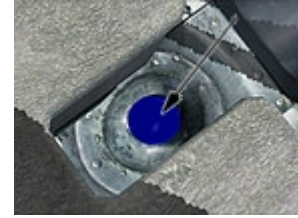

Wheel clipboards (2)

Wipers (2)

Hide yoke
(click the blue area)

Show yoke
(click the blue area)

Control wheels and
columns (2)

Control wheels checklist
sliders (2)

In addition to the above:

- Switches (150)
- Guarded Switches (18)
- Buttons (96)
- Selectors (34)
- Knobs (76)

VC 3D ANIMATIONS (SWITCHES, BUTTONS, KNOBS ETC) CONTROL STANDARDS

1. Two-positions controls - left click or mouse wheel.
2. Multi-position controls:
 - Counterclockwise/decrease - left click or mouse wheel down (towards).
 - Clockwise/increase - right click or mouse wheel up (outwards).
3. Three-position controls with middle spring-back position:
 - Down/left - left click or mouse wheel.
 - Up/right - right click or mouse wheel.
4. Levers and other click-n-drag controls:
 - Decrease - left click+drag or mouse wheel.
 - Increase - right click+drag or mouse wheel.

5. Fast Turn - hold mouse button and turn mouse wheel.

 - Access door
 - Air stairs
 - Emergency exits
 - Aft equip center
 - Stewardess

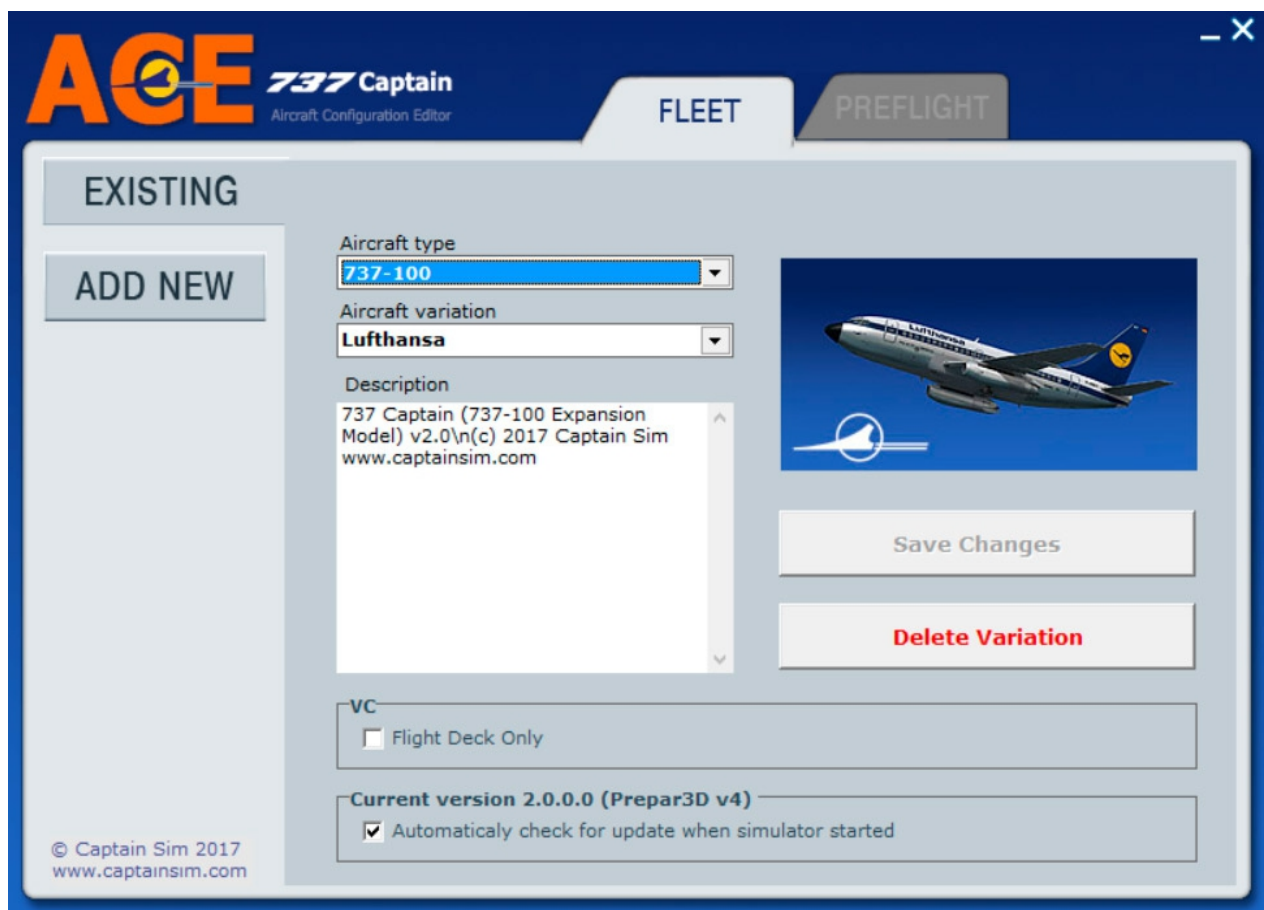

SYSTEMS

See the 737 Captain Manual Part II – Aircraft Systems for details.

ACE (AIRCRAFT CONFIGURATION EDITOR) UTILITY

FLEET TAB

EXISTING

The EXISTING tab helps you manage existing (installed) '737 Captain' liveries:

HOW TO EDIT LIVERY DESCRIPTION?

1. You can modify texts in description field and Aircraft variation field. You cannot change Aircraft type.
2. When finished, press 'Save Changes' button to save the changes.

HOW TO DELETE A LIVERY?

1. Select 'Aircraft type'.
2. Select 'Aircraft variation'.
3. Press 'Delete Variation' button. Pressing 'OK' button will delete the selected variation from your '737 Captain' fleet. **No backup copy will be saved.**

CHECKBOXES

1. **VC.** Check this box if you want to have pax cabin disabled.
2. **Current version box.** Check it if you want automatically check for updates.

Press Save Changes to save all settings.

'ADD NEW' BUTTON

The ADD NEW button helps you add new '737 Captain' livery to flight simulator.

HOW TO ADD NEW LIVERY?

1. Make sure flight simulator is not running.
2. Download and unzip new '737 Captain' livery archive to any folder.
3. Make sure all textures *.dds files, *description.txt* and *thumbnail.jpg* files are located in one folder. No subfolders!

Note: If no *description.txt* and *thumbnail.jpg* files found, ACE will add default ones.

4. Start ACE: Start > Programs > Captain Sim > 737 Captain > ACE.

6. Press 'ADD NEW' button.

7. Find the folder and select *description.txt* file. Click Open. You will see a window with all information about the livery you are going to add.

Note: If no *description.txt* found, select any *.dds or *.txt file. In this case the livery will be added as Unknown Free Livery. You can rename it later.

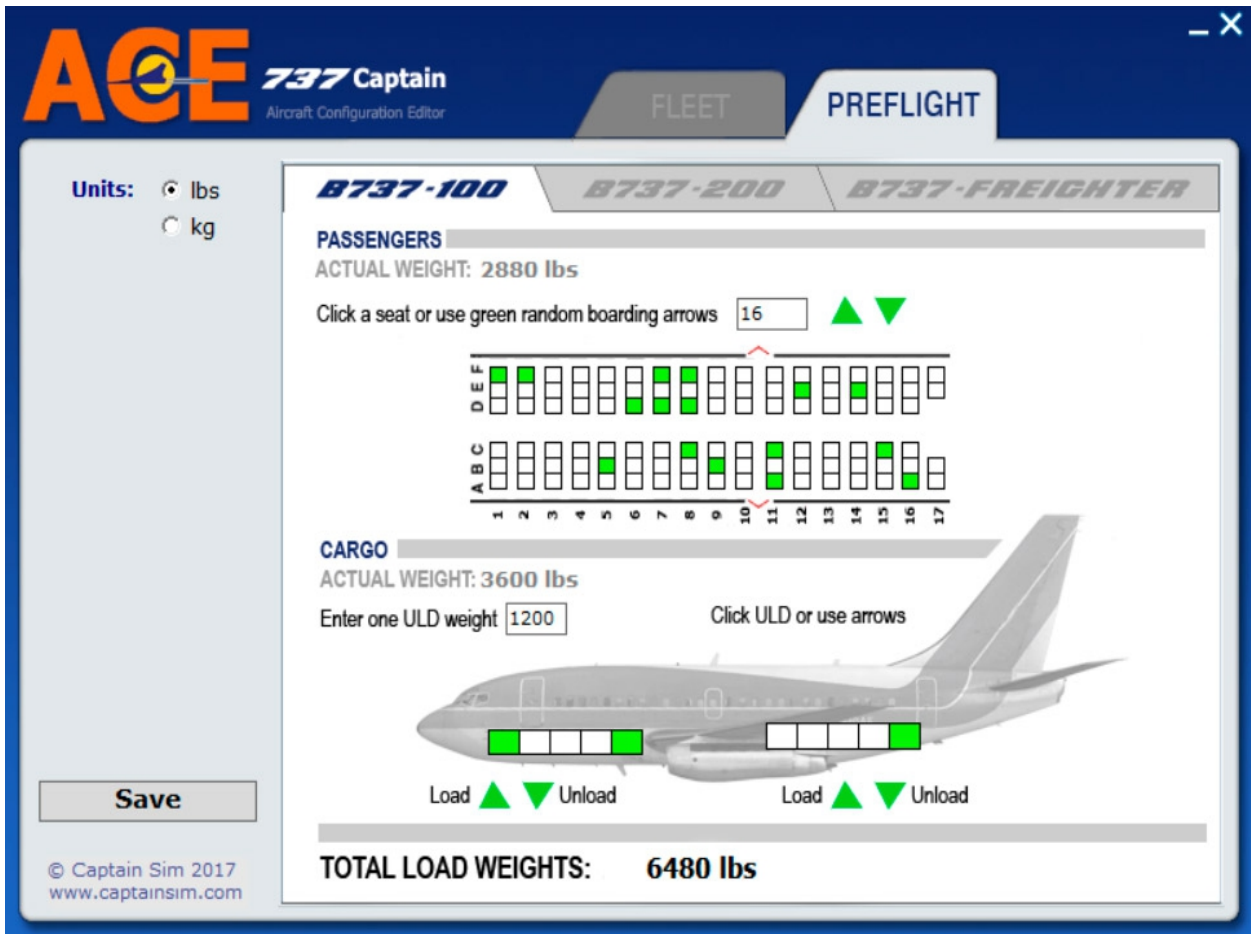

8. Press OK button. The new livery will appear in your flight simulator under Boeing manufacturer, Captain Sim publisher.

'PREFLIGHT' TAB

Use for payload settings of the 737 models available in 737-200, 737-100 and 737-200C/F Expansion Models.

Note: When you open this tab ACE always reads 0 KG/LBS regardless of your previous load settings.

B737-100 TAB

Use radio button to select measurement system – LBS (pounds) or KG (kilograms).

Passengers

Click a seat or use green random boarding arrows or enter a number of passengers in the field. Actual weight will be displayed.

Cargo

Enter one ULD weight. Click ULD section image or use green arrows to load/unload cargo on the lower deck. Actual cargo weight will be displayed.

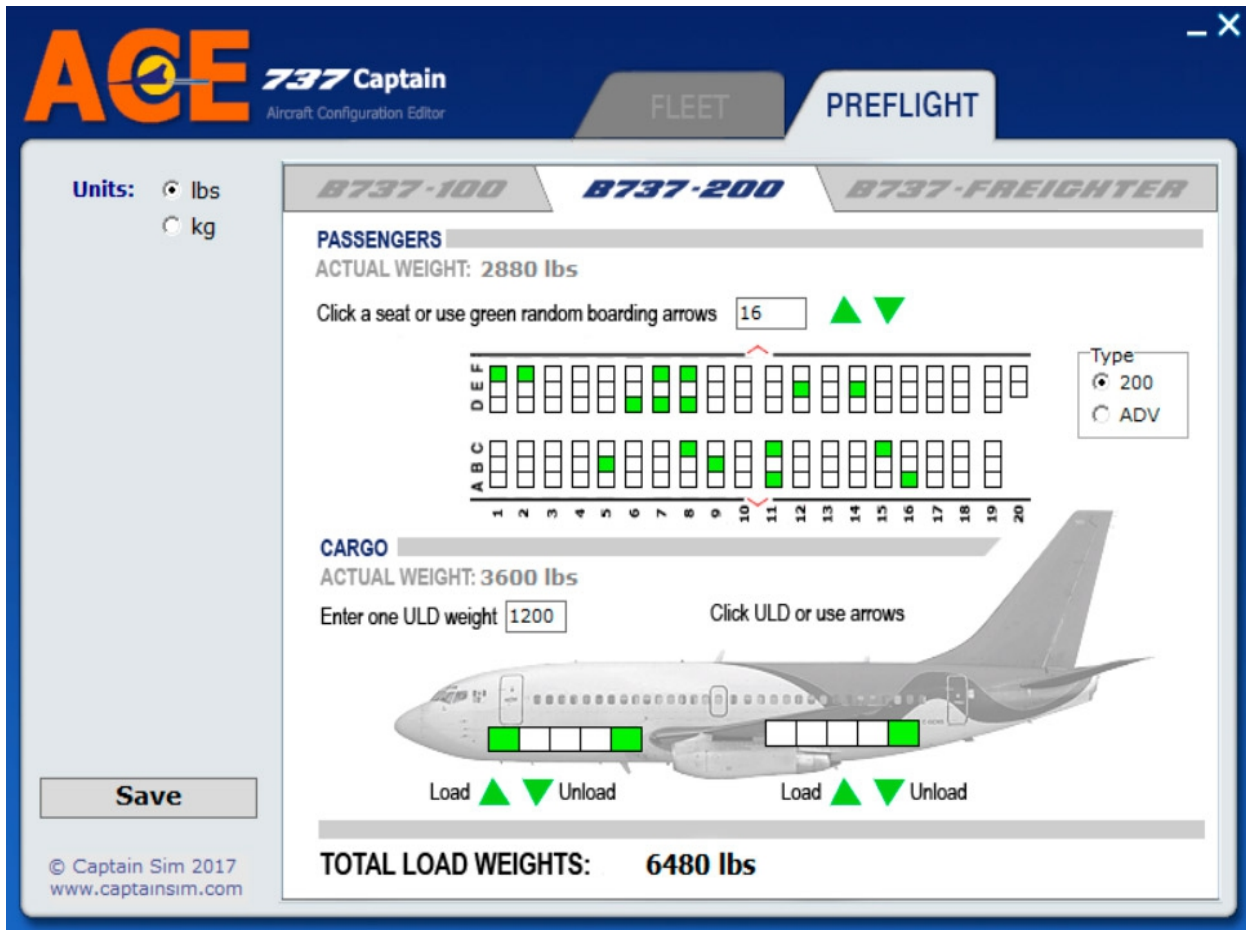

Total Load Weights – displays current total load weight (pax + cargo).

Note: No fuel included/calculated. For fuel load management use your flight

simulator default utilities.

Press 'Save' Button. Load settings apply to 737-100 model.

B737-200 TAB

Use radio button to select measurement system – LBS (pounds) or KG (kilograms).

Passengers

Click a seat or use green random boarding arrows or enter a number of passengers in the field. Actual weight will be displayed.

Cargo

Enter one ULD weight. Click ULD section image or use green arrows to load/unload cargo on the lower deck. Actual cargo weight will be displayed.

Type

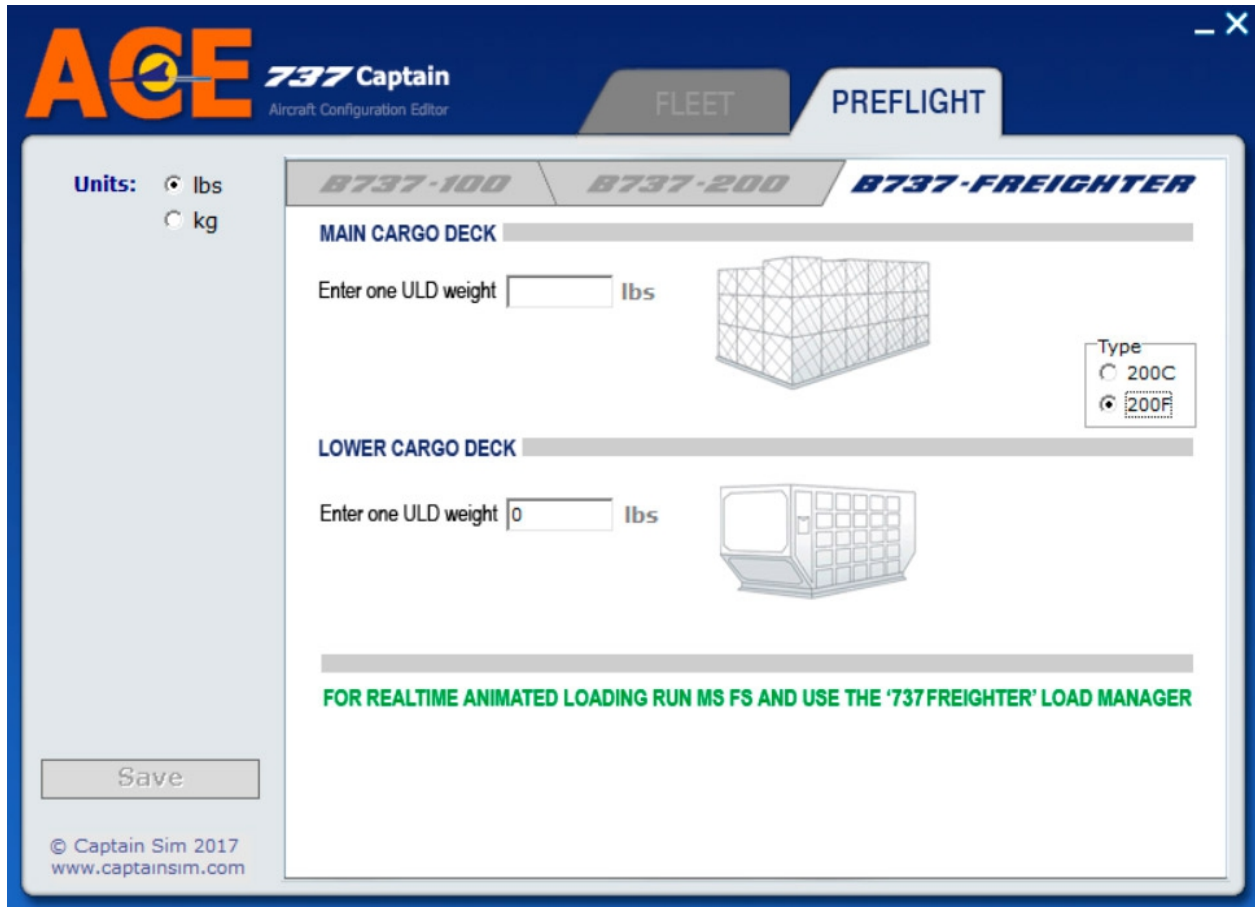

737-200 or ADV.

Total Load Weights – displays current total load weight (pax + cargo).

Note: No fuel included/calculated. For fuel load management use your flight simulator default utilities.

Press 'Save' Button. Load settings apply to 737-200 models.

B737-200C/F TAB

Use radio button to select measurement system – LBS (pounds) or KG (kilograms).

Enter one ULD weight for main cargo deck.

Select aircraft type – 200C or 200F.

Press 'Save' Button. Load settings apply to 737-200C or F models.

For realtime animated load management run flight simulator and use the '737-200C/F' Load Manager.

PAINT KIT

Prior to using the Paint Kit please read Captain Sim [Copyright Policy](#).

The paint kit is universal for the entire 737 Captain family: the -100, -200, 200ADV, -200C and -200F variants.

1. DOWNLOAD 737 CAPTAIN PAINT KIT via [Sim Ops](#).

2. CREATE NEW LIVERY

- Texture files should not be renamed
- Texture files must be in DDS DXT1 NO ALFA format.

3. CREATE DESCRIPTION.TXT

The description.txt is required for one-click installation of the new livery using ACE.

Do not modify text shown in bold font!

Do not type text shown in grey.

The file must contain the following lines:

model=
atc_flight_number=
atc_airline=
atc_id=
ui_variation=
description=

where:

model = *can be one of the following below:*

- 100 (737-100)
- 200 (737-200)
- c (737-200C)
- f (737-200F)
- adv (737-200ADV)

atc_id = XXXXXX (any numbers & characters)

atc_airline = XXXXXX (any numbers & characters)

atc_flight_number = XXXXXX (any numbers & characters)

ui_variation = Unique variation name. Should include full name and year when the livery was current and paint artists' initials. For example: Lufthansa 1980 JS

description = 737 Captain (Your description of the livery). **Free livery, repaint by** Your Name. E-mail address is recommended. \n **(c) 2017 Captain Sim www.captainsim.com**

EXAMPLE OF THE DESCRIPTION.TXT FILE:

model = adv

atc_id=1234

atc_airline=1234

atc_flight_number=1234

ui_variation=Lufthansa 1980

description=737 Captain (737-100 Lufthansa, 1970). Free livery, repaint by John Smith. \n (c) 2017 Captain Sim www.captainsim.com.

4. PACK TO ZIP ARCHIVE THE FOLLOWING FILES:

1. Texture sheets. DDS files. Include modified sheets only.
2. 256x128 pixels thumbnail.jpg image (screenshot) of the new livery.
3. description.txt file

Important: All files must go the archive root without any intermediate folders.

5. TEST NEW LIVERY IN FLIGHT SIMULATOR

Try to add your livery to your flight simulator using ACE.

5. PUBLISH NEW LIVERY USINGNG [THIS FORM](#)

Please make sure file description complies to Captain Sim [Copyright Policy](#).

FREE LIVERIES

The Free Liveries Catalog is available via [Sim Ops](#).

Pro Line Product
NOSTALGY Series

737-100 EXPANSION MODEL

Exterior only. The 737-200 Base Pack required.

Highly detailed and accurate digital replica of **Boeing 737-100** aircraft.

SPECIFICATION

The **737-100 Expansion Model** is available as 'one-click' installer file for each particular flight simulator:

For FSX and P3D2/3: cse731_XX00.exe

For P3D4: csy731_XX00.exe

The File Size: ~33 MB

INSTALLATION

Note:

- The 737-200 Base Pack must be installed before the 737-100 Expansion installation.
- Internet connection is required for installation.
- Order Number is required for installation.

By now you should receive an email message from Captain Sim Sales with your Order Number and the download links. If not, please read [this](#).

1. Make sure the flight simulator is not running.
2. Download the product (cse731_XX00.exe/csy731_XX00) to any folder on your computer.

3. Run the installer (right click on the .exe file, select 'Run as Administrator') and follow the prompts. The installer will add the product to your flight simulator.

Note:

Our products contain custom anti-piracy code that might be falsely alerted by some antivirus software as malicious. Just ignore the "warnings" because our products DO NOT contain any malicious components.

Upon installing the models will appear under 'Captain Sim' publisher as:

- 'Boeing 737-100 in FSX
- 'CS 737-100 [airline]' in P3D.

The installer will add the following shortcut:

Shortcut	Location *	Title	Purpose
	Start > Programs > Captain Sim > 737 Captain	Uninstall	Uninstall the product

* location may vary depending on your Windows version and settings.
